# FUTURE AFRICAN AIRPORTS MASTER PLANNING

*Design | Safety | Security & Airport Operations*

**19 - 20 SEP 2018**

**SOUTHERN SUN HYDE-PARK | SANDTON | JOHANNESBURG | SOUTH AFRICA**

**OUR PARTNERS**

## ABOUT THE CONFERENCE

The key to effective planning is a combination of strong processes, strategic long-term analysis, and attention to daily realities. Develop your strategic business planning skills and prepare a road map for operating your airport business and measuring its progress.

This course will help you understand the principles of demand forecasting and the forecasting process, incorporating new standards from the Airport Design Reference Manual. Study ways to design and implement reliable ground access, airside facilities and technologies, safety/security passenger processes, as well as security and baggage systems.

Airports need to have the infrastructure in place to provide efficient operations in line with safety and security, allow aircraft to operate efficiently, minimize inconvenience for passengers, and provide fast and reliable baggage systems. As air traffic continues to grow, airports need to ensure that each system is flexible enough to accommodate future requirements and absorb the traffic growth.

---

## WHAT YOU WILL LEARN

Upon attending this conference & Workshop you will be able to:

- Develop a master plan that integrates the strategic objectives of your business
- Apply reliable forecasting to your business
- Understand both terminal and airside capacity management
- Provide reliable passenger processes and services at your airport Improve operational efficiency and flexibility

---

## WHO SHOULD ATTEND?

This Conference & Workshop is recommended for airport managers in:

- Operations
- Planning
- Facility planners
- Engineers
- Terminal operators
- Marketing
- Development
- Representatives from civil aviation authorities
- Airline and airport-based & government personnel with AVSEC responsibilities

# CONFERENCE & WORKSHOP COURSE CONTENT
